**PERIODIC SERVICING OF LAUNCHING APPLIANCES AND ON-LOAD RELEASE GEAR"
REGULATION 20.11 OF CHAPTER III OF SOLAS 1974 AS AMENDED**

With reference to the IMO Res. A1206, regarding to the above subject please note the following clarifications and instructions shall be applied to Malaysian ships:

1. The tests and examinations and overhauling required by paragraphs 11.1.2, 11.1.3 and 11.2.3 of Chapter III of the SOLAS 1974 Convention as amended, shall be carried during the special survey of a particular vessel.
2. If the next special survey of a vessel is due after the 1st of July 2003, the above mentioned tests, examination and overhauling shall be carried out during the next dry docking or during an annual or renewal safety equipment survey, or during the renewal survey of Passenger Ship Safety Certificate, but not later than the 1st of July 2003.
3. The dynamic test required by paragraph 6.1.2.5.2 of the International Life-Saving Appliance Code (LSA Code) is not applicable for the winch brakes of launching appliances of ships constructed before the 1st of July 1986.
4. The test required by regulation 20.11.2.3 of Chapter III of the Convention is not applicable for the lifeboats of ships constructed before the 1st of July 1986, which do not comply with the requirements of Regulation 41.7.6.2.2 of Chapter III of SOLAS 74/83.
5. These resolution require certification of servicing personnel, such certification should be issued by the manufacturer in accordance with an established system for training and authorization.
 - 5.1. Weekly and monthly inspections, and routine maintenance as defined by the manufacturer, should be conducted under the direct supervision of a senior ship's officer in accordance with the instructions provided by the manufacturer.
 - 5.2 All other inspections, servicing and repair should be conducted by the manufacturer's representative or a person appropriately trained and certified by the manufacturer or any service provider approved Recognized Organization(s) for the work to be done.
