

Article VII

1. The owner of a ship registered in a Contracting State and carrying more than 2,000 tons of oil in bulk as cargo shall be required to maintain insurance or other financial security, such as the guarantee of a bank or a certificate delivered by an international compensation fund, in the sums fixed by applying the limits of liability prescribed in Article V, paragraph 1 to cover his liability for pollution damage under this Convention.
2. A certificate attesting that insurance or other financial security is in force in accordance with the provisions of this Convention shall be issued to each ship after the appropriate authority of a Contracting State has determined that the requirements of paragraph 1 have been complied with. With respect to a ship registered in a Contracting State such certificate shall be issued or certified by the appropriate authority of the State of the ship's registry; with respect to a ship not registered in a Contracting State it may be issued or certified by the appropriate authority of any Contracting State. The certificate shall be in the form of the annexed model and shall contain the following particulars:
 - (a) name of ship and port of registration;
 - (b) name and principal place of business of owner;
 - (c) type of security;
 - (d) name and principal place of business of insurer or other person giving security and, where appropriate, place of business where the insurance or security is established;
 - (e) period of validity of certificate which shall not be longer than the period of validity of the insurance or other security.
3. The certificate shall be in the official language or languages of the issuing State. If the language used is neither English nor French, the text shall include a translation into one of these languages.
4. The certificate shall be carried on board the ship and a copy shall be deposited with the authorities who keep the record of the ship's registry or, if the ship is not registered in a Contracting State, with the authorities of the State issuing or certifying the certificate.
5. An insurance or other financial security shall not satisfy the requirements of this Article if it can cease, for reasons other than the expiry of the period of validity of the insurance or security specified in the certificate under paragraph 2 of this Article, before three months have elapsed from the date on which notice of its termination is given to the authorities referred to in paragraph 4 of this Article, unless the certificate has been surrendered to these authorities or a new certificate has been issued within the said period. The foregoing provision shall similarly apply to any modification which results in the insurance or security no longer satisfying the requirements of this Article.
6. The State of registry shall, subject to the provisions of this Article, determine the conditions of issue and validity of the certificate.
7. Certificates issued or certified under the authority of a Contracting State in accordance with paragraph 2 shall be accepted by other Contracting States for the purposes of this Convention and shall be regarded by other Contracting States as having the same force as certificates issued or certified by them even if issued or certified in respect of a ship not registered in a Contracting State. A Contracting State may at any time request consultation with the issuing or certifying State should it believe that the insurer or guarantor named in the certificate is not financially capable of meeting the obligations imposed by this Convention.
8. Any claim for compensation for pollution damage may be brought directly against the insurer or other person providing financial security for the owner's liability for pollution damage. In such case the defendant may, even if the owner is not entitled to limit his liability according to Article V, paragraph 2, avail himself of the limits of

liability prescribed in Article V, paragraph 1. He may further avail himself of the defences (other than the bankruptcy or winding up of the owner) which the owner himself would have been entitled to invoke. Furthermore, the defendant may avail himself of the defence that the pollution damage resulted from the wilful misconduct of the owner himself, but the defendant shall not avail himself of any other defence which he might have been entitled to invoke in proceedings brought by the owner against him. The defendant shall in any event have the right to require the owner to be joined in the proceedings.

9. Any sums provided by insurance or by other financial security maintained in accordance with paragraph 1 of this Article shall be available exclusively for the satisfaction of claims under this Convention.

10. A Contracting State shall not permit a ship under its flag to which this Article applies to trade unless a certificate has been issued under paragraph 2 or 12 of this Article.

11. Subject to the provisions of this Article, each Contracting State shall ensure, under its national legislation, that insurance or other security to the extent specified in paragraph 1 of this Article is in force in respect of any ship, wherever registered, entering or leaving a port in its territory, or arriving at or leaving an off-shore terminal in its territorial sea, if the ship actually carries more than 2,000 tons of oil in bulk as cargo.

12. If insurance or other financial security is not maintained in respect of a ship owned by a Contracting State, the provisions of this Article relating thereto shall not be applicable to such ship, but the ship shall carry a certificate issued by the appropriate authorities of the State of the ship's registry stating that the ship is owned by that State and that the ship's liability is covered within the limits prescribed by Article V, paragraph 1. Such a certificate shall follow as closely as practicable the model prescribed by paragraph 2 of this Article.
